

- |                                                     |                                 |
|-----------------------------------------------------|---------------------------------|
| 1. Metal Studs wall cavity                          | 13. Pressure gasket             |
| 2. Substrate                                        | 14. Stainless steel spring clip |
| 3. Moisture barrier                                 |                                 |
| 4. Vertical support aluminum extrusion              |                                 |
| 5. Aluminum horizontal Z-girts (or double L angles) |                                 |
| 6. ALPHATON® terra cotta panel                      |                                 |
| 7. Terra cotta panel middle aluminum clip           |                                 |
| 7.1 Terra cotta panel top aluminum clip             |                                 |
| 8. Anchor clip                                      |                                 |
| 9. Blocking                                         |                                 |
| 10. Aluminum snap-on coping cap                     |                                 |
| 11. Formed aluminum non continuous support clip     |                                 |
| 12. Cleat                                           |                                 |
